PROFILE

Results-driven Frontend Developer Intern proficient in JavaScript, React.js, HTML, and CSS. Excited about contributing to Zenskar's innovative billing and pricing infrastructure for SaaS. Eager to apply entrepreneurial mindset, strong work ethic, and communication skills to own the user-facing side of the product. Committed to driving Zenskar's success through pixel-perfect web applications.

PROJECTS/ INTRENSHIPS

Software Intern (May – Aug 2023) Sumago Infotech Pvt. Ltd.

I developed and maintained a PHP-based web CMS that currently powers more than 10 websites for small and medium-scale businesses. Communicated with clients and implemented changes as per requirements and feedback.

AI ChatBot (April 2023)

Developed GPT-based flutter application for chatbot using Openai API.

Team Co-lead Hardware and Network Maintenance (July 21 – June 22) Government Polytechnic Solapur.

vSupervised and trained 10+ juniors on various tasks and procedures. Optimized the performance of 50+ old computer systems by upgrading software and hardware. Troubleshooted and resolved over 100+ hardware or network issues.

Barshi Mall (Feb-2022)

Developed a user-friendly admin panel to manage the content and data of the project, such as users, orders, products, etc.
